Greetings, Dahlia Friends--

Within this list are some of the best dahlias grown. I am continually watching for better varieties to add to my list. Many of the new ones I have tried have been wonderful, while others failed to produce satisfactory results and were destroyed. Each grower is limited as to the number of dahlia varieties he can handle. Mine are contained within this list. All orders will be filled with roots that I would be satisfied to receive myself.

GENERAL INSTRUCTIONS

In filling out your order please print or write very plainly.

Each time ordering be sure to give full name and address.

Be sure to specify shipping date desired. I will ship as near this date as possible.

If you do not wish to order from my list please pass it on to a friend.

If, for any reason, roots received are not satisfactory, please notify me as soon as possible. I pack all orders myself, but like any human, am not perfect. I am always willing to correct any mistakes. All stock has been field inspected and apparently free of disease. All stock is true to name to the best of my ability.

I always give extras on orders of \$5.00 or more. Larger the order the more extras.

Any failure you feel is due to fault of my stock will be replaced, but in no case will I be responsible for more than purchase price or replacement.

Orders over \$5 are prepaid any time. Orders of less than \$5, allow 50¢ postage and packing. After April 1 allow 35¢ for postage and packing.

(over)

If postage allowance is sent in with orders of \$5 or more, roots of at least double value of postage will be included with order.

COLLECTIONS

I have a surplus of many of the best varieties that I will make into Collections at a much more reasonable price. To do this, I must be allowed to make the selection of varieties. Only varieties known to be Good Growers will be used. A wonderful opportunity to receive best for far less. All Pre-paid. If in doubt, order a Collection.

One of best sources of cultural hints is contained in Rocky River Dahlia Garden Catalog, Rocky River Dahlia Garden, East River Road, Columbia Station, Ohio.

A FEW THINGS TO REMEMBER

Dahlias will grow in a wide range of soils and locations, but are partial to good treatment. They love moisture, but not wet feet, so be sure to plant where there is good drainage, soil of fair fertility, and at least five or six hours of sunshine, preferably morning sun. While plants are young soil should be kept well worked fairly close to plant, but after plant starts to branch cultivation should be shallow near the plant, so as not to disturb the feeder roots. Two or three times during the growing season a well balanced fertilizer may be worked in around plant, but no closer than six inches, and a little more distance from plant as they get larger. When watering soak the ground well once a week, rather than a small amount each day. Many insecticides are recommended, and I have tried most, but found one of the best to be Malathion, which is as near a complete insect killer as is on the market. Whatever you use, be sure to read directions carefully. If using DDT be sure to use some compatible spray material with it, as DDT does not kill two of our most destructive insects, Red Spider Mite and Aphid.

Dahlias should not be planted near trees or shrubs, as these rob too much moisture and food from the ground. Best to plant large varieties three feet apart, and Miniatures and Poms a little closer. Dahlias like company, but not crowding.

If roots are wanted by special delivery or special handling, these charges must be paid by purchaser.
